

PURESKIN

PUREHYDR

8 IN 1 OXYGENATING FACIAL

PurePeel · Oxygenation · Exfoliation · Skin Tightening · Lifting · Product Infusion · Fire & Ice

PURE PEEL

Removes all traces of debris, blackheads and dead skin cells whilst utilising a combination of 3 solutions to cleanse, smooth and hydrate the skin - all in one treatment.

FIRE AND ICE

The Fire element which heats the skin up to 45 degrees, opens pores and increases the blood supply and Ice with a temperature that can be reduced down to 5 degrees to close the pores and reduce inflammation.

PURE OXYGENATION

PureGlo allows oxygen to be drawn into the skin. A reaction occurs between the capsules and the active ingredients causing minute carbon dioxide bubbles on the skin.

PURE INFUSE

Ultrasound technology with 100-300 million vibrations per second, infusing product at the same time.

PURE LIFT

Radio frequency technology is used to increase collagen reproduction and skin tightening, resulting in collagen and elastic production.

PURE FIRM

Utilising microcurrent, often referred to as a natural facelift, reduces fine lines and wrinkles, while firming your skin and defining your features. Improves muscle tone, reduce puffiness, increase cellular activity and tighten pores.

PURE OXY

Designed to nourish your skin and promote collagen growth through spraying highly concentrated molecules of oxygen into the epidermis.

PURE LYMPHATIC

Circular movements to help with blood circulation, lymphatic drainage whilst infusing active ingredients directly into the skin.

- 8 Technologies in one affordable device
- Low consumables
- Treat all skin types
- Easy to operate
- Upsell skin care opportunities
- High consumer demand

Calculations based on 3 treatments carried out per day, 5 days, 1 month (4 weeks) and over 52 working weeks. Based on average price per treatment.

PURESKIN

"I'm delighted to be the ambassador for PURESkin's PureHydro super facial device. As I've gotten older it's been harder to keep my skin hydrated and glowing so this state of the art facial will be the ultimate remedy to my skin. I love that the PureHydro treatments are totally bespoke to your skin type and any concerns, with everything from the best deep cleansing to exfoliation, deeply moisturising infusion and even fire & ice – it's certainly the latest 'it' facial on the scene. I'm currently having a course of facials and I can't wait to get my glow back!"

Andrea McClean

"Thank you ever so much for the great Training received for the PureHydro Machine. What a machine ! After having children, it's quite daunting starting work again, the Customer Service has been 5 Stars and not forgetting the results of the treatments. Wow...very grateful to be part of the PureSkin family."
